EDUCATION

University of Trento

Trento, Italy

Ph.D. in Information Engineering and Computer Science

Nov. 2021–15/01/2025

- Title: *Efficient Knowledge Transfer and Adaptation for Speech and Beyond*
- Advisors: Daniele Falavigna, Alessio Brutti
- Research interests: continual learning for audio and speech processing; multi-modal (i.e., audio-language) continual learning; parameter-efficient transfer learning of audio/speech (e.g., Adapters, Mixture of Adapters, LoRA); Multi-modal LLMs for audio-visual speech recognition.

University of Padua

Padua, Italy

MSc in Telecommunication Engineering

2016–2019

- Advisors: Michele Rossi, Matteo Gadaleta
- Thesis Title: A Deep Learning-Based ECG Delineator: Evaluation and Comparison on Standard Databases

University of Padua

Padua, Italy

BSc in Information Engineering

2013–2016

- Advisor: Nicola Laurenti
- Thesis Title: Message Authentication over an Ideal or Noisy Channel

WORK EXPERIENCE

Imperial College London

London, UK

Research Associate in the iBUG group

03/2025-ongoing

- My research revolves around efficient scaling of audio-visual models via Mixture of Experts and LLMs.
- Advisor: Stavros Petridis

Jelinek Summer Workshop on Speech and Language Technology (JSALT)

Le Mans, France

Junior researcher in the FST group

June 2023 –August 2023

- Junior researcher for the “*Finite state methods with modern neural Architectures for speech applications and beyond*” group at JSALT2023 in Le Mans, France. I worked on the integration of early-exit techniques to make the training and inference of CTC/MMI systems dynamical. Our group included people from Google, JHU, Telecom Paris to name a few. More information available [here](#).

Imperial College London

London, UK

Research Intern, *Audio-visual speech recognition meets LLMs*

February 2024 –November 2024

Supervisor: Stavros Petridis (ICL/Meta AI)

- Proposed Llama-AVSR, a multimodal LLM with strong audio-visual speech recognition abilities. This work has been accepted to *ICASSP* 2025. More details [here](#).

MENTORSHIP & PROFESSIONAL SERVICES

- **Reviewer:** ICASSP 2024-2025, ANNPR 2024, Interspeech 2024-2025, IJCNN 2025, Neurocomputing,
- **Co-supervision:** I co-supervised a MSc student from the University of Bologna (thesis title: “*On the use of Prompting for Fine-Tuning Neural Models for Speech Processing*”)

TALKS & PRESENTATIONS

- “Parameter-Efficient Fine-tuning for Audio and Speech Processing.” *Invited talk at the CUED Speech Group Seminars at the University of Cambridge* (April 2024).

SKILLS

- **Programming Languages:** Python (advanced), Java (basic), HTML (basic), Matlab (basic)
- **ML/DL Toolkits/Libraries:** PyTorch (advanced), HF Transformers (advanced), Pytorch Lightning, NumPy, Matplotlib. Good experience with CL libraries like Continuum and Avalanche
- **Distributed systems:** Hands-on experience with large scale training of models using distributed systems
- **ASR Frameworks:** good experience with SpeechBrain and K2/icefall
- **Other:** Git, Docker

LANGUAGES

- **Italian:** mother tongue
- **English:** C1
- **TOEFL:** 100/120
