## EDUCATION

---

### University of Trento

Ph.D. in Information Engineering and Computer Science

Trento, Italy

Nov. 2021–15/01/2025

- Title: *Efficient Knowledge Transfer and Adaptation for Speech and Beyond*
- Advisors: Daniele Falavigna, Alessio Brutti
- Research interests: continual learning for audio and speech processing; multi-modal (i.e., audio-language) continual learning; parameter-efficient transfer learning of audio/speech (e.g., Adapters, Mixture of Adapters, LoRA); multi-modal LLMs for audio-visual speech recognition. This led to 9 publications in top-notch conferences.

### University of Padua

MSc in Telecommunication Engineering

Padua, Italy

2016–2019

- Advisors: Michele Rossi, Matteo Gadaleta
- Thesis Title: A Deep Learning-Based ECG Delineator: Evaluation and Comparison on Standard Databases

### University of Padua

BSc in Information Engineering

Padua, Italy

2013–2016

- Advisor: Nicola Laurenti
- Thesis Title: Message Authentication over an Ideal or Noisy Channel

## WORK EXPERIENCE

---

### Imperial College London

Research Associate in the iBUG group (leader: Maja Pantic)

London, UK

03/2025-ongoing

- My research focuses on advancing audio-visual speech recognition (AVSR) through Multimodal Large Language Models in a parameter-efficient way. [Llama-AVSR](#), presented at ICASSP 2025, represents the very first attempt to unify AVSR and LLMs.
- Proposed: • [Llama-AVSR \[ICASSP 2025\]](#) • [Llama-SMoP \[Interspeech 2025\]](#) • [Llama-Matryoshka \[IEEE ASRU 2025\]](#) • [Mixture of Matryoshka Experts \[NeurIPS 2025\]](#) • [Omni-AVSR \[submitted to ICASSP 2026\]](#) • [Attention Sinks and Massive Activations in AVSR with LLMs \[submitted to ICASSP 2026\]](#).
- Supervisor: Stavros Petridis (ICL/NatWest AI Research)

### Imperial College London

Research Intern, *Audio-visual speech recognition meets LLMs*

London, UK

February 2024 –November 2024

Supervisor: Stavros Petridis (ICL/Meta AI)

- I investigated the efficient integration of LLMs for the task of audio-visual speech recognition. This culminated in [Llama-AVSR](#), a multimodal LLM with strong audio-visual speech recognition abilities. This work has been accepted at *ICASSP 2025*. More details [here](#).

- Junior researcher for the “*Finite state methods with modern neural Architectures for speech applications and beyond*” group at **JSALT2023** in Le Mans, France. I worked on the integration of early-exit techniques to make the training and inference of CTC/MMI systems dynamical. More information available. This led to a [publication](#) at ICASSPW 2023.

## SKILLS

- **Programming Languages:** Python (advanced), Java (basic), HTML (basic), Matlab (basic)
- **ML/DL Toolkits/Libraries:** PyTorch, HuggingFace Transformers, Pytorch Lightning, NumPy, Matplotlib, Scikit-Learn
- **Distributed Systems:** Hands-on experience with large scale training of models using distributed systems
- **Tools & Platforms:** Git, Docker

## LANGUAGES

- **Italian:** Mother tongue
- **English:** Professional working proficiency

## TALKS & PRESENTATIONS

- “Parameter-Efficient Fine-tuning for Audio and Speech Processing.” *Invited talk at the CUED Speech Group Seminars at the University of Cambridge* (April 2024).

## PROFESSIONAL SERVICES & MENTORSHIP

### Reviewer

- Conferences: ICLR, ACMMM, ICASSP, Interspeech, IJCNN, IEEE MLSP.
- Journals: IEEE Signal Processing Letters, Neurocomputing, International Journal of Computer Vision, Transactions on Image Processing, Knowledge-based Systems.

### Mentorship

- Anand [University of British Columbia, MSc student][summer 2025]: *attention sinks and massive activation in audio-visual LLMs*.
- Lidia Prokopovych [MIT, B.A. student][summer 2025]: *robustness evaluation of Llama-AVSR under different acoustic and visual noise*.
- Stefano Ciapponi [University of Bologna, MSc student][summer 2023]: *prompting techniques to parameter-efficiently fine-tune neural models for speech processing*.
